THE URBAN HATCHBACK THAT BREAKS THE MOULD

Turn heads and set yourself apart from the norm with the bold Nissan Note e-POWER. Powered by Nissan's second-generation, award-winning¹ e-POWER system, it offers a simple yet powerfully modern design, a trend-setting interior and thrilling acceleration.

¹ Awarded 2019 and 2021 "Technology of the Year" by the Automotive Researchers' and Journalists' Conference of Japan (ARC), and "Best Innovation" at Torque Honours 2020.

THE AWARD-WINNING ELECTRIFIED HATCHBACK

Crowned Japan Car of the Year 2021 - 2022 and sgCarMart.com Car of the Year 2021 (Hybrid) - This electrified hatchback showcases Nissan's latest design concept, Timeless Japanese Futurism. The simple, yet powerfully modern and distinctive Japanese approach sets it apart from other hatchbacks. Extensively redesigned and redeveloped, the system produces more torque, a higher-quality driving experience and improved efficiency, without the need for plug-in charging.

E-POWER EVOLVES

The Note e-POWER features the second generation of Nissan's acclaimed e-POWER electrified powertrain. By incorporating the strength, smoothness and quietness of Nissan's second-generation e-POWER system, this electrified hatchback boasts an excellent driving experience, with everything you need to power your drive.

360 DEGREES OF ADVANCED SAFETY TECHNOLOGY

The Note e-POWER's advanced safety technology offers 360 degrees of coverage to give drivers added assistance and peace of mind on the road. A first for Nissan, 1,470 MPa ultra-high tensile steel has been adopted in the vehicle chassis, contributing to both weight reduction and improved passive safety performance. Nissan Intelligent Driving technologies are available on the Note e-POWER, giving drivers more confidence through enhanced safety, control and comfort.
